

Assalaamu Alaykum wa rahmatullaahi wa barakaatuhu

Our Islamic theme for this month is **Allah the Creator**.

Carpet time discussions:

- **Mini beasts:** During our play, we have explored mini beasts like ants, spiders, bees, butterflies and more. We have learnt about their different ways of living, moving and eating. Some insects like bees help to carry pollen to make honey while worms keep soil full of nutrients to grow plants and vegetables.
- **Allah the Creator:** At carpet time we talked about the different creations of Allah. He is the One who made everything; the sun, the moon, the stars, the sea, the rain, and the animals. He also created us and our families! Allah has Power over everything.

We have introduced the dua' **when leaving the home**:

Please continue our work at home.

JazaakAllaahu Khayran.
